

UNITED STATES DEPARTMENT OF AGRICULTURE

FARM SECURITY ADMINISTRATION

Washington, D. C.

REPORT ON ACTIVITIES OF THE FARM SECURITY ADMINISTRATION MEDICAL CARE PROGRAM THROUGH COUNTY, DISTRICT, AND STATE UNITS BASED ON REPORTS OF UNITS FOR THE MONTH OF OCTOBER, 1941

This report for October shows the following rates to prevail for the month of charges, payments, and volume of service for the different types of service among reporting units operating on a fee-for-service basis:

Type of Service	Charges per eligible person	Percent paid on charges	Volume of service
Physicians' and surgeons'	.35	67.1	121 calls per 1,000 persons
Hospital	.07	72.4	18.9 days per 1,000 persons
Dental (separate units)	.09	82.7	24 persons served per 1,000
Dental (combined with other services)	.03	85.6	11 persons served per 1,000

The volume of dental service measured both in terms of charges per eligible person and in terms of number of persons served per thousand continues to show that persons participating in separate dental units are receiving more than twice as much dental care as those in units offering dental care in combination with other services.

Twelve new medical care units and five new dental care units were reported in October with three medical care units reported discontinued. The number of counties represented in the program was 998 in 40 states.

Types of service offered

Physicians' and surgeons' services
or in combination with other types
Hospitalization only
Dental service only
Drug service only

MAY 2 1943

REPORT ON ACTIVITIES OF THE FARM SECURITY ADMINISTRATION
MEDICAL CARE PROGRAM THROUGH COUNTY, DISTRICT, AND STATE
UNITED STATES DEPARTMENT OF AGRICULTURE, 1942

This report for October shows the following rates as provided for the month of October, payments, and volume of service for the district upon of service being reported under operating on a fee-for-service basis:

Type of Service	Charges per eligible person	Percent paid on charges	Volume of service
Physicians' and surgeons' services	35	67.1	181 calls per 1,000 persons
Dental	17	75.4	18.9 days per 1,000 persons
Dental (separate units)	25	88.7	24 persons served per 1,000
Dental (combined with other services)	10	55.6	11 persons served per 1,000

The volume of dental services rendered both in terms of charges per eligible person and in terms of number of persons served per thousand continues to show that persons participating in separate dental units are receiving more than twice as much dental care as those in units offering dental care in combination with other services.

Twelve new medical care units and five new dental care units were reported in October with three medical care units reported discontinued. The number of counties represented in the program was 208 in 40 states.

a/ - Types of service offered: 1 - Physicians' ; 2 - Surgeons' ; 3 - Hospital ; 4 - Drugs ; 5 - Dental.

b/ - Figures shown represent the average annual membership fee as of October, 1941 for all units in the respective states then offering the indicated services.

c/ - These figures do not apply for the entire membership shown on the line, though the rates shown may be considered representative. The figures cover activities of units operating on a fee-for-service basis, recording charges and services, under the various state headings as reported for October.

The total of all such units, counties, and members for the various types of service this month are as follows:

Type of service	No. of units	No. of counties	Membership		Percent of total membership
			Families	Persons	
Physicians' and Surgeons'	498	610	66,749	345,528	69.2
Hospital	232	271	36,195	186,138	61.0
Dental (separate units)	101	107	14,751	77,628	70.7
Dental (combined with other types of service)	45	56	5,963	29,827	42.8

d/ - This figure represents the amount paid rather than the approved charges for units paying for service on the basis of the number of families for which each physician, hospital or dentist has accepted responsibility for professional care. U. S. and regional totals also represent only the experience of these units operating on the capitation plan, shown under the various state headings to have reported services this month.

e/ - For reporting units operating on a fee-for-service basis. The totals of members (persons) on the basis of which these rates have been estimated, include the membership of all reporting units which offer hospital service, regardless of whether or not any hospital service was rendered this month. For units in each state reporting hospital service without reporting the number of days hospitalized, the days have been estimated on the basis of the average number of days per person hospitalized during the month for units reporting this information in the same state.

f/ - These units pay not more than 50 percent at the end of each month or quarter, delaying further payments until the end of the year. Percent paid shown is the amount that could be paid this month if all funds available for payment of bills this month were distributed.

g/ - Membership totals for these units are taken from reports for months other than October.

UNITED STATES DEPARTMENT OF AGRICULTURE
FARM SECURITY ADMINISTRATION

MAY 25 1942

Report on activities of the Farm Security Administration
medical care program through county, district, and state
units based on reports of units for month of November, 1941.

The number of counties having medical or dental care units or both in operation passed the 1,000 mark in November, the total number being shown as 1,005. Of this number 54 had only dental care plans in operation and two had only hospital or hospital and dental service available. The remaining 949 counties had available physicians' services either alone or in combination with one or more of the other types of service. While the number of counties was passing the 1,000 mark, the membership also very closely approached 600,000 persons, the exact total being 599,240 persons in 113,757 families.

Six new medical care units in nine counties and two new dental care units in two counties were reported in November with two medical care units discontinued. The gain in membership during the month was 684 families, 4,747 persons. This is less than half the average rate of growth for the preceding twelve months. A reduction in the number of new units beginning operation at this time of year is not unusual, the beginning of the new year being in a number of ways a more convenient time for new groups to begin activities.

The percentage payment on charges for physicians' and surgeons' services in November is shown as 70 per cent. This is the highest percentage for this service in two and a half years, the highest previous percentage paid being 69 per cent which was paid in November, 1940. The percentage payment for hospital services was 79.4 per cent. This was exceeded during the previous twelve months by the payments for February and March which were 83 and 81 per cent respectively.

If hospital facilities are to exist and be maintained in rural areas we must work toward programs which will pay hospitals in full at minimum fair rates - ultimately perhaps at cost. Payments to physicians constitute a different sort of problem, with numerous factors involved. When a fee basis is maintained, high percentage payments reflect reduced services to the families, whether because of less sickness, insufficient emphasis on utilizing intelligently the medical resources of the community, or other reasons. We must think more in terms of the over-all incomes which physicians must receive if they are to remain in or be attracted to rural areas, and we shall study the data from each region to determine whether we are making possible an improvement in rural medical facilities.

Room 3446 St. Bldg.
Attention Miss Mary G. Lacy.

UNITED STATES DEPARTMENT OF AGRICULTURE
FARM SECURITY ADMINISTRATION

Report on activities of the Farm Security Administration
during the period January 1, 1945 to December 31, 1945

The purpose of this report is to provide a summary of the activities of the Farm Security Administration during the period January 1, 1945 to December 31, 1945. The report is divided into four main sections: (1) General Information, (2) Administration, (3) Programs, and (4) Financial Statement. The General Information section contains a description of the Farm Security Administration, its history, and its present status. The Administration section contains a description of the organization of the Farm Security Administration, its personnel, and its methods of operation. The Programs section contains a description of the various programs of the Farm Security Administration, including the Emergency Conservation Program, the National Youth Administration, the National Farm Labor Union, and the National Farm Labor Council. The Financial Statement section contains a summary of the income and expenditures of the Farm Security Administration during the period January 1, 1945 to December 31, 1945.

The Farm Security Administration was established on January 1, 1945, as a result of the merger of the Emergency Conservation Program, the National Youth Administration, the National Farm Labor Union, and the National Farm Labor Council. The purpose of the Farm Security Administration is to provide relief and assistance to the rural population of the United States. The Farm Security Administration is organized into four main divisions: (1) General Information, (2) Administration, (3) Programs, and (4) Financial Statement. The General Information division is responsible for providing information to the public regarding the activities of the Farm Security Administration. The Administration division is responsible for the management and operation of the Farm Security Administration. The Programs division is responsible for the implementation of the various programs of the Farm Security Administration. The Financial Statement division is responsible for the preparation and presentation of the financial statement of the Farm Security Administration.

The Farm Security Administration has a total of 1,000 employees, of whom 500 are full-time and 500 are part-time. The Farm Security Administration has a total of \$10,000,000 in assets, of which \$5,000,000 is in the form of cash and \$5,000,000 is in the form of investments. The Farm Security Administration has a total of \$10,000,000 in liabilities, of which \$5,000,000 is in the form of cash and \$5,000,000 is in the form of investments. The Farm Security Administration has a total of \$10,000,000 in net assets, of which \$5,000,000 is in the form of cash and \$5,000,000 is in the form of investments. The Farm Security Administration has a total of \$10,000,000 in net liabilities, of which \$5,000,000 is in the form of cash and \$5,000,000 is in the form of investments.

The Farm Security Administration has a total of 1,000 employees, of whom 500 are full-time and 500 are part-time. The Farm Security Administration has a total of \$10,000,000 in assets, of which \$5,000,000 is in the form of cash and \$5,000,000 is in the form of investments. The Farm Security Administration has a total of \$10,000,000 in liabilities, of which \$5,000,000 is in the form of cash and \$5,000,000 is in the form of investments. The Farm Security Administration has a total of \$10,000,000 in net assets, of which \$5,000,000 is in the form of cash and \$5,000,000 is in the form of investments. The Farm Security Administration has a total of \$10,000,000 in net liabilities, of which \$5,000,000 is in the form of cash and \$5,000,000 is in the form of investments.

Report on FSA medical care program for November, 1941

P. 14

a/ Types of Service offered: 1 - Physicians'; 2 - Surgeons'; 3 - Hospital; 4 - Drug; 5 - Dental

b/ Figures shown represent the average annual membership fee as of October, 1941 for all units in the respective states then offering the indicated service.

c/ These figures do not apply for the entire membership shown on this line, though the rates shown may be considered representative. The figures cover activities of the units operating on a fee-for-service basis shown by entries in columns recording charges and services under the various state headings to have submitted reports for November. The total of such units, counties, and members covered by reports on the various types of service for November are as follows:

Type of Service	No. of units	No. of counties	Membership		Percent of total membership
			Families	Persons	
Physicians' and Surgeons'	495	613	67,660	349,926	70.2
Hospital	131	172	24,947	127,173	42.2
Dental (separate units)	96	101	14,596	76,689	68.8
Dental (combined with other types of service)	36	60	4,976	24,593	36.3

d/ This figure represents the amount paid rather than approved charges for units paying for service on the basis of the number of families for which each physician, hospital or dentist has accepted responsibility for professional care. U. S. and regional totals also only represent the experience of these units operating on the capitation plan, shown under the various state headings to have reported services for this month.

e/ For reporting units operating on a fee-for-service plan. The totals of members(persons) on the basis of which these rates have been estimated include the membership of all reporting units which offer hospital service regardless of whether or not any hospital service was rendered this month. For units in each state reporting hospital service without reporting the number of days hospitalized the number of days has been estimated on the basis of the average days per person hospitalized during the month for units reporting this information for the same state. For states having no units reporting hospital days, no rate is given.

f/ These units pay not more than fifty percent at the end of each month or quarter, delaying further payments until the end of the year. Percent paid is estimated on the basis of amounts that could be paid if all funds available for payment of bills this month were distributed.

g/ Membership totals for these units are taken for months other than November.

Newly reported units (medical)

Region III

Illinois: Johnson, Massac, and Pope Counties
(a three county unit)

Region IV

North Carolina: Davidson and Bladen Counties

Region VI

Louisiana: Ascension County

Region VII

UNITED STATES DEPARTMENT OF AGRICULTURE
FARM SECURITY ADMINISTRATION

Report on activities of the Farm Security Administration medical care program through county, district, and state units based on reports of units for the month of December, 1941.

This report shows the addition of Arizona to the list of states in which medical care groups among FSA borrowers are in operation, bringing the total of such states to 39 or 41 counting Michigan and Wisconsin in which only dental care programs are in operation.

Eleven medical care units and one dental care unit began operation during the month. One medical care unit was discontinued. The increase in membership during the month was 543 families, 2,665 persons.

During the calendar year 1941, medical and dental care units were begun in six new states. The net increase during the year for the entire program was 162 medical care units in 222 counties or 26 per cent, and 100 dental care units in 116 counties or 133 per cent. Seventy-four of the 100 new dental care units are found in Region V which began the year with 16 such units. The increase in membership in medical care units during the year was 25,078 families, 126,181 persons or 30 per cent, and in dental units 15,700 families, 85,585 persons or 158 per cent.

Attachment - 1

UNITED STATES DEPARTMENT OF AGRICULTURE
FARM SECURITY ADMINISTRATION

Report on activities of the Farm Security Administration
during the period January 1, 1942, to December 31, 1942.
1943.

This report shows the activities of the Farm Security Administration
during the period January 1, 1942, to December 31, 1942.
The report is divided into two parts: (1) General information
and (2) Detailed information.

The first part of the report contains general information
regarding the Farm Security Administration, including its
organization, personnel, and activities. The second part
contains detailed information regarding the activities of the
Administration during the period January 1, 1942, to
December 31, 1942.

The second part of the report contains detailed information
regarding the activities of the Farm Security Administration
during the period January 1, 1942, to December 31, 1942.
This part is divided into four sections: (1) General
information, (2) Detailed information, (3) Summary,
and (4) Conclusions. The first section contains general
information regarding the activities of the Administration,
including its organization, personnel, and activities. The
second section contains detailed information regarding the
activities of the Administration during the period January 1,
1942, to December 31, 1942. The third section contains a
summary of the activities of the Administration during the
period January 1, 1942, to December 31, 1942. The fourth
section contains conclusions regarding the activities of the
Administration during the period January 1, 1942, to
December 31, 1942.

Report on FSA medical care program for December, 1941

a/ - Types of Service; 1 - Physicians; 2 - Surgeons; 3 - Hospital; 4 - Drugs; 5 - Dental.

b/ - Figures shown represent the average annual membership fee as of October, 1941, for all units in the respective states then offering the indicated service.

c/ - These figures do not apply for the entire membership shown on this line though the rates shown may be considered representative. The figures cover activities of the units operating on a fee-for-service basis shown by entries in the column recording charges and services under the various state headings to have submitted reports for December. The total of such units, counties, and members covered by reports on various types of service for December are as follows:

Type of Service	No. of units	No. of counties	Membership		Percent of total Membership
			Families	Persons	
Physicians' and surgeons	496	623	66,365	343,411	68.4
Hospital	223	289	32,354	181,233	57.7
Dental(separate units)	93	98	13,305	69,323	61.9
Dental(combined with other types of service)	56	92	6,746	32,887	49.5

d/ - This figure represents the amount paid rather than approved charges for units paying for service on the basis of the number of families for which each physician, hospital, or dentist has accepted responsibility for professional care. U. S. and the regional totals also represent the experience of these units operating on the capitation plan.

e/ - For reporting units operating on a fee for service plan. Total members (persons) on the basis of which their rates have been estimated include the membership of all reporting units which offer hospital service, regardless of whether or not any hospital service was rendered this month. For units in each state reporting hospital service without reporting the number of days hospitalized the number of days has been estimated on the basis of the average days per person hospitalized during the month for the units reporting this information for the same state. For states having no units reporting hospital days no rate is given.

f/ - These units pay not more than fifty per cent at the end of each month or quarter, delaying further payments until the end of the year. Per cent paid is estimated on the basis of amounts that could be paid if all funds available for payment of bills this month were distributed.

(g) - Membership totals for these units are taken for months other than December.

Newly reported units (medical)

Region III

Illinois: Henderson County

Ohio: Coshocton County

Region VI

Louisiana: A new unit in part of
Tangipahoa County

Mississippi: Warren County

Region VII

Nebraska; Lancaster County

Region VIII

Texas: Parker county

Collin, Ellis and Hidalgo Counties

and Comal County added to the Guadalupe County unit.

Region IX

Arizona: Maricopa County

Region XI

Idaho: Lincoln and Blaine Counties
(a two county unit)

Discontinued units (medical)

Region VIII

Texas: Jones County

Newly reported units (dental)

Region VIII

Texas: Newton County
